Our Vision

Delivering Excellence through
the **Passion of Our People**

GROUNDWORKS & CIVILS

In conjunction with carefully selected subcontract partners, we have vast experience of carrying out a full range of ground & civil works prior to completing the surfacing. We will take your project from greenfield or brownfield status right through to finished surfacing. Our vastly experienced contracts team will plan and deliver all aspects of site development, including:

- Bulk earthworks
- Drainage installation
- Culvert installation
- Service installation including street lighting
- Road construction and surfacing

Previous projects include:

- **Housing Developments**
Rivenwood, Newtownards
Millmount, Dundonald
- **Carparks**
Ballintoy Harbour
Newtownards Hospital Staff and Visitor Carparks
- **Tourism**
Redevelopment of Golf Links Caravan Park
Extension to Carrick Dhu Touring Caravan Park

NORTHSTONE
A CRH COMPANY

SURFACING

We are one of the leading suppliers and installers of road surfacing materials in both public and private settings. Works range from the £18million surfacing package on the A6, Randalstown to Castledawson Dualling through maintenance schemes on the public highway, to the surfacing of residential housing estates, carparks and private laneways.

Our contracts crews, who are all trained NVQ Road Builders operate our fleet of modern paving equipment with automatic level controls allowing for materials to be laid to tight tolerances.

The geographical spread of our production locations and our modern haulage fleet allows material to be delivered to site in a timely fashion ensuring tight quality and temperature control on the delivered material.

All schemes are supervised by our team of qualified Civil Engineers who are familiar with DFI Roads and other national standards allowing all works to be adopted by government bodies as necessary. Our works are also accredited to:

- BS EN ISO 9001 Quality Management
- BS EN ISO 14001 Environmental Management
- BS EN ISO 45001 Health and Safety Management

PUBLIC REALM CONTRACTS

We are experienced in delivering prestigious Public Realm schemes across Northern Ireland. These schemes are designed to enhance the urban landscapes making these areas more attractive as living and working environments. The streetscape is enhanced through reconstruction of footways with both asphalt and natural stone surfacing, upgrades to street lighting, additions of seating, street art and landscaped areas and the incorporation of multi use open spaces.

Through these schemes we have developed key relationships with stone and street furniture suppliers using materials from China, India and Portugal as well as locally crafted stone, furniture and artworks, many of which are bespoke for the individual project.

Schemes include:

- Warrenpoint Public Realm
- Newry Hill Street Public Realm
- Redburn Square, Holywood
- Market Square, Dungannon
- Lurgan Town Centre
- Lock Gate Number 3 Refurbishment, Lagan Canal
- The Yardmen, East Belfast
- The Leap of Faith, Stewartstown Road, Belfast

SPECIAL PRODUCTS

Since 1990 we have specialised in the supply and installation of innovative products and processes that provide durable, high performance, cost-effective safety and/or aesthetic surfacing solutions. These include:

- NorthGrip (High Friction Surfacing)
- NorthColour (Traffic Calming / Demarcation Surfacing)
- NorthDec (Resin Bonded & Resin Bound Surfacing)

Our expertise and pursuit of innovation has established us as market leaders, offering tailored advice & solutions to clients within road construction and maintenance.

Our competent and experienced contracting teams use the latest modern machinery and techniques to lay these surface treatments. Together with our HAPAS, BS8870, ISO9001 and active membership of the Road Surface Treatment Association provide client assurance of quality accredited delivery.

OUR LOCATIONS

With locations across the region and the products and services we provide, we have the capability to deliver your project.
